Good bye and Good Luck!

It has been a pleasure for me to serve as the NACCCA newsletter editor for the past 4 years. I worked closely with all the Past Presidents and the Board members and met and became good friends with many NACCCA members all over the world. I learned the newest technologies from NACCCA members who are the experts in their fields. I obtained information from them that help my research interests in the Standardization of HbA1c and diabetes testing. I visited and made presentations to various Laboratory Medicine organizations in the Pacific region because of the NACCCA networking. Being a NACCCA member and the editor has been one of the most rewarding experiences for me. I want to express my sincere thanks to all the people who have helped me over the years by providing me with information, articles and suggestions for the newsletter. My best wishes for Jannie Woo, the new editor, for the continue success of the NACCCA newsletter.
